

This is the main view for selecting the audio files
(While scrolling through sound the sound files)

The audio files can be dragged into the “Shaker”.
The object that gets dragged will stay opaque. (Opacity = 50%)

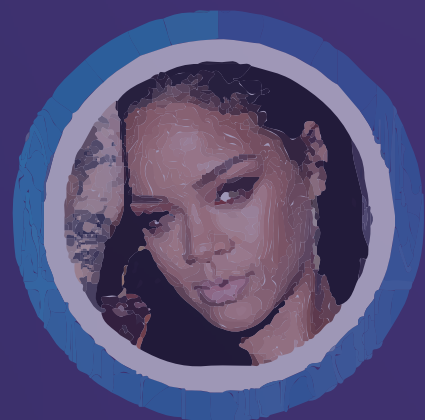

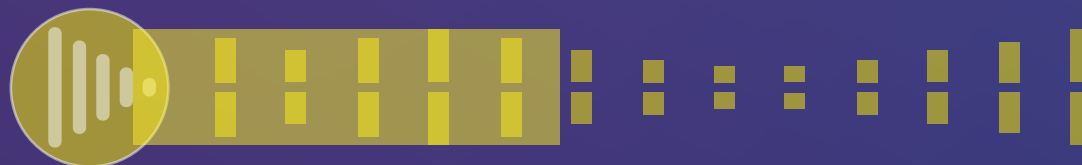

(ON MOUSE CLICK DOWN)

SHAKE

The shaker logo will be animated when clicked on for a visual effect.
(A quick left & right movement)

SHAKE

After clicking the shake button the audio file window will appear for playback. (Finalized sound file will be ready for playback)
